

ELECTRIC DUMPSTER | HTD-5E

JCB

100% electric. Zero emissions.

JCB E-TECH

MAX CARRY CAPACITY
500kg

LOAD OVER HEIGHT
1.45m

MACHINE WIDTH
706mm

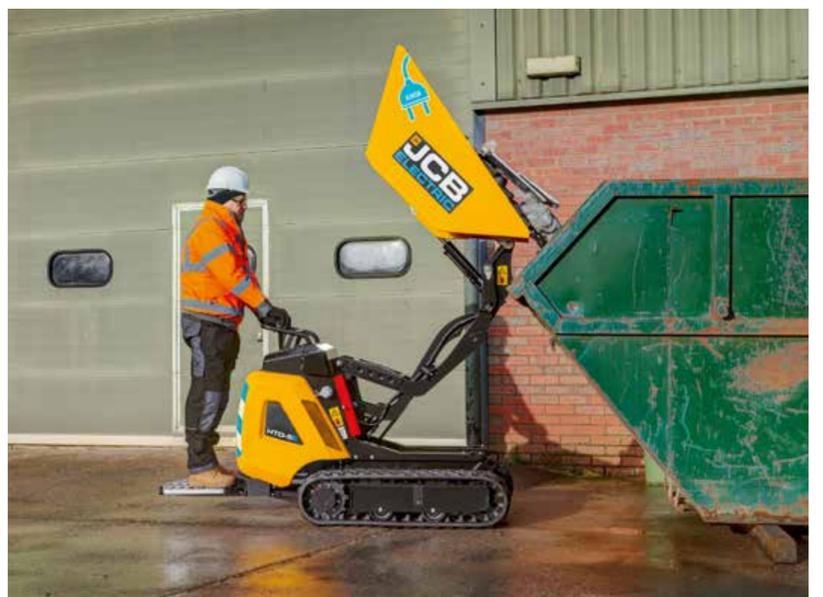

ZERO EMISSIONS.

The new HTD-5E is the industry's first high volume, fully electric Dumpster, with zero emissions at point of use and zero compromise on performance.

IDEAL FOR ALL

We have ensured that the HTD-5E is both safe and productive, making it ideal for rental, housebuilding, landscaping, agriculture and much more.

LOW NOISE.

Low noise levels make the electric Dumpster ideal for urban areas plus indoor and out-of-hours working. It also allows better communication with co-workers.

QUIETER WORKING

Operator station noise is reduced by a huge 14dB compared to the diesel model.

WORKS AROUND YOU.

Lithium-ion batteries allow power for 3-4 hours* of standard use but can be extended up to 8 hours with top up charging throughout the day.

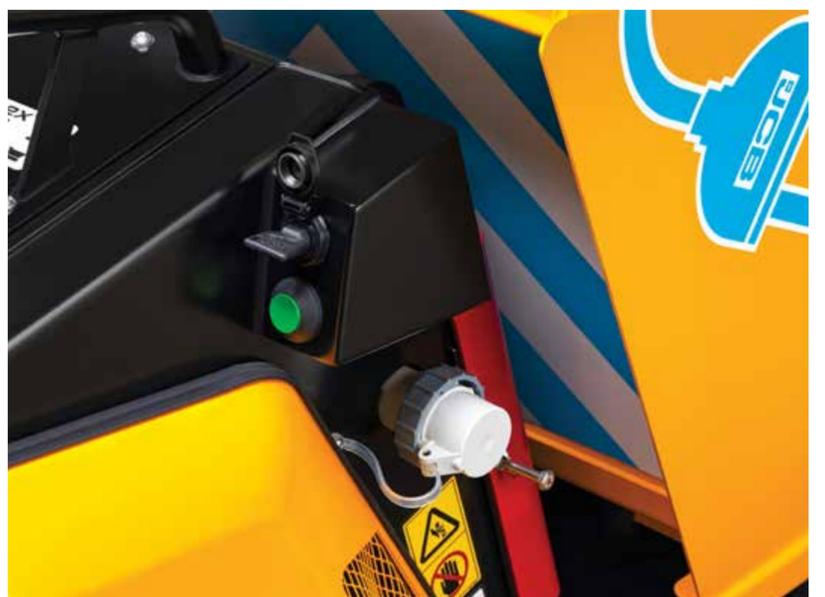

[CLICK HERE FOR EXAMPLE OF TOP UP CHARGING](#)

CHARGING SOLUTIONS

Charge time of just 73** minutes from any 240v outlay with 3 charging cable options for maximum versatility (110v, 240v and 3 pin domestic plug).

*Illustrative example based on testing. Running time can vary depending on the environmental conditions and type of application.
**Charge times measured from 20-80% (Industry Standard).

SAFETY INNOVATION.

The new SmartStep feature offers increased safety and operator comfort. Stepping off isolates power to the tracks but still allows it to the skip and hydraulics.

DUEL OPERATION

Offering both walk-behind and ride-along capability, the new HTD-5E makes moving material easy for the operator both inside and out.

ZERO COMPROMISE.

The electric Dumpster has zero compromise on performance and has all the benefits of the traditional diesel equivalent.

BENEFITS INCLUDE:

- Fitting through a standard doorway with a maximum machine width of just 706mm.
- 1.45m load over directly into a skip or high sided vehicle.
- High carrying capacity of 500kg.

ELECTRIC DUMPSTER | HTD-5E

SPECIFICATION.

MODEL	HTD-5E
Part number	980/E7003
Maximum carry capacity	500kg
Unladen mass	606kg
Machine width	706mm
Overall height (transport position)	1,105mm
Load over height	1.45m
Maximum height (tipping position)	2,700mm
Continuous power	4.5kW
Battery capacity	4.9kWh
Maximum tracking speed	3km/h

HTD-5E DUMPSTER

100% ELECTRIC, ZERO EMISSIONS

100% electric. Zero emissions.
